Subject: Microsoft Settlement

Regarding the Microsoft settlement, I do not believe the current settlement proposal is adequate. Microsoft has continued it's abusive monopolistic practices, even in light of the proceedings against them. I would like to see a settlement proposal that has some chance of putting an end to this. If you don't do something to stop them now, we will have to go through this again in a few years.

"I see in the near future a crisis approaching that unnerves me and causes me to tremble for the safety of my country. ... corporations have been enthroned and an era of corruption in high places will follow, and the money power of the country will endeavor to prolong its reign by working upon the prejudices of the people until all wealth is aggregated in a few hands and the Republic is destroyed."
